

From Soft-Top to Roof-Top

Private Client Insurance from Footman James

Founded in 1983, Footman James has grown to be one of the UK's leading specialist vehicle insurance brokers and this year, we were awarded with the Investor In Customers Silver Award 2020 and the Feefo Platinum Trusted Service Award 2020 in recognition of our high standard of customer service.

Our experienced Private Clients team currently arranges insurance of over £1.3 billion worth of asset value, with our portfolio of policies able to provide cover for prestigious vehicle collections, yachts and marine vessels, plus high-value homes and contents - including overseas homes (location exclusions apply).

We understand that high-value assets and collections can be vast, complex and ever-changing, which is why all our Private Clients are assigned a dedicated Account Handler to guide them throughout the lifetime of a policy. With this in mind, our Account Handlers also take a much more individual approach for our Private Clients by arranging policies that are most suited to the specific needs of each client.

An additional benefit of being a Footman James Private Client is that you also gain access to our *Chrome Collective* club. The *Chrome Collective* is an exclusive community which allows members access to highly sought-after complimentary events and experiences. Last year, members of the *Chrome Collective* enjoyed an F1 Preview Evening with Damon Hill & Karun Chandhok and hospitality at Silverstone Classic. This year, we've hosted a virtual wine tasting evening with a Q&A on wine as an investment opportunity, plus we've invited our clients to join us at London Concours.

To find out more about a Private Clients policy, you can visit our website (where you can also request a call back), give the team a call or send us an email using the details below.
